Dear Colleagues,

It is our great pleasure to invite you to the 6th edition of the IBD Summer School.
We look forward to meeting you in person in Thun.

The Summer School is characterized by its high practical relevance and is aimed at experienced colleagues who would like to refresh their knowledge and assistant doctors who would like to deepen their knowledge in the field of IBD.

We are pleased that we were able to attract a whole series of top-class speakers from Switzerland and abroad for this training event.

Focal points of this year's event include an interactive hands-on ultrasound training on Thursday with exciting patient cases, and on Friday we will illuminate various topics related to new therapy options.

We are looking forward to spending two interesting and instructive days with you!

Kind regards,

Prof. Dr. med. Dr. phil. Gerhard Rogler
